What is the Momentum Builders Circle?

Launched in 2023, the Momentum Builders Circle is a dedicated group of funders who have committed significant, multi-year investments to ensure Exponent Philanthropy has the resources and capacity it needs to deliver timely insights, essential guidance, and a strong collective voice for lean funders in today's complex, ever-shifting environment.

Why does your investment matter now?

We're living through a critical time for philanthropy and the social sector. Across the country, philanthropic leaders are rising to meet urgent needs in their communities. But the pace of change is relentless, and the challenges we face are growing every day. Threats to philanthropy and our nonprofit partners, shifting public policy, and economic uncertainty are all affecting our organizations and our communities.

As the largest network of funders in the country, comprised of more than 1,500 community-connected funders representing all 50 states, Exponent Philanthropy serves as a powerful, collective voice for philanthropy. Your investment in Exponent Philanthropy's Momentum Builders campaign ensures that we are well-positioned to provide you with timely insights and practical guidance, a national network of partners with local roots, and a strong collective voice in today's ever-shifting political environment.

As the only association dedicated to lean funders - those who achieve outsized impact with limited time and staff - we are your trusted guide and collective voice to:

- **Navigate fast-moving federal policy shifts**
- **Access real-time guidance** and expert resources
- **Protect your First Amendment right** to freely support your community partners
- **Collaborate with peers** to amplify your giving
- **Respond quickly** to the evolving needs of your communities

About Us

Exponent Philanthropy is the largest philanthropy network in the country. With more than 1,500 members in every corner of the U.S., we are a nationwide network of community-connected philanthropy leaders. Our members include all types of foundations, families, companies, and individuals who achieve outsized impact with limited time and staff. Our members – no matter their asset size (ranging from less than \$1 million to over \$1 billion) – focus on investing maximum resources directly to the causes, people, and places they care about. Exponent Philanthropy's work focuses on amplifying and increasing the impact of these lean funders and transforming communities through informed giving. We do this by fostering a strong philanthropic network, serving as the collective voice for lean funders, sharing innovative and promising practices from across the field, and providing a robust arena for idea exchange and collaboration.
